SLAM2000

SLAM1000 & SLAM2000 Scanners

SLAM1000: Lowest Cost Solution

- 70m Range, 200kpts vs 640/320Kpts, similar noise profile
- Good for smaller jobs, individual practitioners
- Not intended for Geospatial workflows
- Data can integrate with other scanner projects

SLAM2000: Services Grade, Lower Cost

- 70m Range, 200kpts vs 640/320Kpts, similar noise profile
- Reasonable for larger and geospatial jobs
- Unique tripod workflow option
- Data can integrate with other scanner projects
